

1. Cut around the edges of the Christmas angel.
2. Make two slits where the wings meet the main body.
3. Colour your angel in with crayons, felt-tips or paint. Don't forget to add lots of glitter, sequins and other Christmas decorations!
4. Fold the two corners of the angel's dress back on themselves to make a cone shape. Glue or staple the two ends together.
5. You're angel is ready! Put her on the very top of the Christmas tree - but be careful, it can be a bit of a balancing act!
